

MLE Equipment Welcomes New Regional Sales Manager, Jim Spurlock

MACON, GA - (October 2010) MLE Equipment is pleased to announce that Jim Spurlock has joined our team as Regional Sales Manager for Florida; Jim is based in Tampa. As Regional Sales Manager, Jim is responsible for developing and supporting sales and rentals of MLE Equipment remediation systems and associated product-support services. Jim brings a wealth of experience to MLE Equipment, with over twenty-five years in the environmental-systems and environmental-technology businesses. In this time, Jim has worked with consulting engineers and manufacturers to design, develop, and implement engineered solutions to environmental problems.

"MLE Equipment is proud to have Jim Spurlock join our team in Florida" stated Jeremy Dayment, Vice President of Sales for MLE Equipment. "By providing sales and product support close to our customers, MLE Equipment can continue to offer the best possible customer service."

"MLE Equipment is focused on providing practical solutions for the treatment of contaminated soil and industrial applications" said Bruce Lounsbury, President of MLE Equipment. "Florida is a very important market for us and we are pleased to be continuing to develop our sales and product support for clients in the whole South-Eastern area."

About MLE Equipment (www.mleequipment.com):

MLE Equipment, a member of the Calco Environmental Group, designs, builds, commissions, and supports systems for soil-remediation and industrial applications. The systems range from single-well pumping systems to large, combined soil-vapor extraction/groundwater pump-and-treatment systems. Systems are highly-customized with sophisticated control systems, designed specifically to provide innovative solutions for our customers' unique requirements. MLE Equipment also distributes a range of environmental products, including pumps, sampling equipment, air strippers, and carbon filters. MLE Equipment is the Canadian master distributor for QED, the leading manufacturer of groundwater sampling equipment in North America, and pioneers of MicroPurge sampling. Key customers include leading environmental engineering consulting firms, and large environmental contracting firms. Sales and support in Canada and the United States are provided through an established network of highly-respected business partners. MLE Equipment is known in the industry for its professional, long-term approach to the business, delivering quality solutions to support our business partners and customers' success.
