

MLE Equipment Announces Appointment of Bob Kennedy to President

BROCKVILLE, ON - (January 2011) MLE Equipment is pleased to announce that Bob Kennedy has been appointed President of MLE Equipment. Bob joined MLE Equipment in 1993 to lead sales development. Prior to this appointment Bob filled the roles of Executive Vice President and Chief Technology Officer of MLEE. In his tenure with MLE Equipment he has been intimately involved in all aspects of the operation from equipment design and manufacture to sales, sales partner development, field service, operations and accounting. Bob is a member of the Calco Environmental Group Ltd. Board of Directors and a member of the MLE Equipment Leadership team

"We are proud to have Bob assume the role of President of MLE Equipment" stated Robert Kulhawy, Executive Chairman of Calco Environmental Group. "This is another key step in the development of our Calco Leadership team. Having Bob assume this role allows Bruce Lounsbury, President and CEO of the Calco Environmental Group, to focus on providing leadership to all of our Calco operating companies to achieve our aggressive ten year growth plan."

"We are very pleased to have Bob take over and focus on the leadership of MLE Equipment. Bob has a strong vision of MLE Equipment as the industry leader in equipment design and manufacture employing state-of-the-art technologies and manufacturing techniques to best serve our customers" stated Bruce Lounsbury, President and CEO of Calco Environmental Group. "The implementation of Lean Manufacturing principles and the move to a formalized LPS (Loss Prevention System) are examples of the impact his vision and leadership are already having on our organization."

About MLE Equipment (www.mleequipment.com):

MLE Equipment, a member of the Calco Environmental Group, designs, builds, commissions, and supports systems for soil remediation and industrial applications. The systems range from single well pumping systems to large combined soil vapor extraction/groundwater pump and treatment systems. Systems are highly customized with sophisticated control systems, designed specifically to provide innovative solutions for our customers' unique requirements. MLE Equipment also distributes a range of environmental products which includes pumps, sampling equipment, air strippers, and carbon filters. MLE Equipment is the Canadian master distributor for QED, the leading manufacturer of groundwater sampling equipment in North America and pioneers of MicroPurge sampling. Key customers include leading environmental engineering consulting firms, and large environmental contracting firms. Sales and support in Canada and the United States are provided through an established network of highly respected business partners. MLE Equipment is known in the industry for its professional, long term approach to the business, delivering quality solutions to support our business partners and customers success.
